Greetings.

The Supreme Court has recently issued permitting abortion clinics to remain open in the State of Texas. The honorable government of the State of Texas had issued several laws concerning abortion clinics. These laws recognize the legality of abortion within the United States, but also insist that standards be in place to prevent abortion from being any more barbaric (if that is possible). The recent ruling “struck down” these laws.

Of course, it is my position that the State of Texas should have refused to obey abortion laws at all. It is my wish that all states in the Union oppose these unjust and immoral laws from the federal government. Since this is not possible at this time, however, it is nevertheless prudent for States to hinder these immoral and unjust laws to the best of their ability.

I applaud the governments of the several states who use their capacity to resist these ungodly abortion laws. Likewise, I oppose the action of the Supreme Court to make war on the unborn in their recent ruling. There will always be a war on the unborn until every abortion clinic in this nation is closed down for good.

The Supreme Court continues its “crusade” to force devilish and barbaric practices on the American people. This ruling on abortion is only matched by the recent ruling in support of gay marriage. Regardless of Supreme Court dictums, it is every one’s responsibility to voice their opposition to these reprehensible Court rulings.

Thank you.
